## FURNISHINGS

At Heather Mauldin interiors we excel in creating the perfect space for our discerning clients.

After the initial site visit, we conduct an in-depth meeting to ascertain style, budget options, and functionality of the space. A personalized design concept for furnishings is created and communicated by custom moodboard and material samples.

The items are sourced from exclusive "To the Trade Only" vendors who offer exceptional quality and cutting-edge style. We order furnishings, track shipments, receive shipments, inspect and install all items via professional white-glove delivery.

Lastly, the final decor styling ties all the pieces together to deliver a polished room.
